The Belgian dredging, environmental and marine engineering group DEME is an international market leader for complex marine engineering works. Building on more than 140 years of experience and know-how, DEME has organically moved into several related sectors, such as the financing of marine engineering and environmental projects, executing complex EPC-related marine engineering projects including civil engineering works, the development and construction of renewable energy projects, providing services for the oil, gas and energy sector, the decontaminating and recycling of polluted soils and silts, the harvesting of marine resources, etc. Thanks to an integrated company structure, DEME strongly emerges as a 'global solutions provider' which offers its clients overall solutions. DEME has the most modern, high-tech and versatile fleet.

DEME Group has 4,900 employees worldwide and achieved a turnover of 1.97 billion euros in 2016. More information on [www.deme-group.com](http://www.deme-group.com)
