RENSEIGNEMENTS GÉNÉRAUX

RAPPORT AU MINISTRE

Objet. — *Statistiques des Pêches maritimes (année 1950)*

Le présent rapport a pour but de soumettre à M. le Ministre la statistique des Pêches maritimes, de la Mytiliculture et de l'Ostréiculture pour l'année 1950 et de lui donner des indications sur les résultats obtenus au cours de la même année.

MATÉRIEL

En 1950, 17.171 navires, représentant un tonnage global de 230.729 tonneaux, se livrèrent à la pêche en France et en Algérie, au lieu de 17.726 unités d'un tonnage de 231.452 tonneaux en 1949.

En raison des difficultés de la pêche en 1950, un nombre de navires sensiblement plus restreint que l'année précédente prirent la mer, ce recul se manifeste par des désarmements de nombreuses embarcations de faible tonnage et de navires chauffant au charbon.

Le tonnage des navires à combustible liquide s'accroît par suite de l'entrée en service de navires en acier, mais leur nombre diminue du fait de l'arrêt des unités de la pêche artisanale qui est particulièrement sensible à l'augmentation des charges d'exploitation.

PERSONNEL

76.811 pêcheurs pratiquèrent la pêche en 1950, au lieu de 73.925 en 1949. Cet accroissement vient de la pêche à pied qui utilisa 12.457 hommes contre 8.247 en 1949, tandis que 64.334 pêcheurs firent la pêche en bateau contre 65.678 l'année précédente.

PRODUCTION

La production totale de la pêche s'est élevée à 370.449 tonnes en 1950, alors qu'elle était de 386.200 en 1949.

44.638 tonnes de morue salée furent mises à terre (auxquelles il convient d'ajouter 2.529 tonnes débarquées à Saint-Pierre et 3.021 tonnes exportées directement des lieux de pêche). En 1949, la production de la pêche salée avait été de 37.400 tonnes, non comprises 6.300 tonnes débarquées à Saint-Pierre.

La production de poisson frais s'élève à 312.656 tonnes, au lieu de 329.500 tonnes en 1949, marquant un recul sensible, tandis que celle des crustacés se maintient au niveau de 1949 (13.154 tonnes au lieu de 13.000 tonnes l'année précédente).

Le Directeur des Pêches maritimes.

TERRIN.
