Report of Activities

PELAGIC FISH COMMITTEE

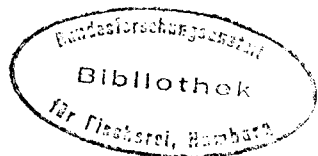

by

R.S. Bailey

1987

BELGIUM

(R. De Clerck)

No market sampling of pelagic fish has been carried out in 1987. Research vessel surveys with bottom trawl on the juvenile herring and sprat were continued as given in the table below.

The research was limited to density and length measurements.

Research vessel catches.

Area	Season	Objectives
IV c Belgian coast	April and September	Recording densities of immature herring and sprat

FINLAND

(R. Parmanne & V. Sjöblom)

No work carried out on pelagic fish other than that reported to the Baltic Fish Committee.
