The Blue training online one-stop-shop platform: MarineTraining.eu

Are you having problems finding the adequate marine or maritime course? Do you want to outsource the time consuming administrative burden of establishing a training? Do you have a Blue training initiative you want to disseminate at a European scale?

The Marine Training Platform is the partner you were looking for!

Our services include a free insights into a comprehensive database focused on higher education institutes (both universities and university colleges) and a free access to the collected data from all existing European blue training initiatives for each country, ranging from master and doctoral programmes, to expert trainings and specialist courses. In addition, our services include organizational aspects of creating and running a training in a straightforward and fast way. We support advertising possibilities, supply administrative services to trainees and training organizers (application, registration & certification) and create marine and maritime dedicated e-learning initiatives. Moreover, in the framework of the Belgian node of EMBRC (European Marine Biological Resource Centre - a distributed Research Infrastructure (RI), of which Belgium is an associate partner through Ghent University, University of Hasselt, Flanders Marine Institute and future partners, and via involvement in other European Blue Growth projects and networks, we are gradually expanding, including non-accredited training initiatives (for instance, research institutes and industries).

The Marine Training Platform is your online one-stop-shop for Blue Training in Europe
