56 Belgian marine institutes or research laboratories partner of BeNCoRe

Since the start of BeNCoRe 56 institutes or research laboratories agreed on becoming BeNCoRe partner and this number is still growing. The agreement of becoming partner can be considered as a Memorandum of Understanding. There are no real obligations, restrictions or financial implications associated to the agreement but the intention to co-operate to BeNCoRe for the development and exchange of information, knowledge and experience related to coastal research and Integrated Coastal Zone Management.
