

## INVITATION

### YPEP Seminar on Coastal Zone Management

On 11-13 September 2007, DANCORE (the Danish Network for Coastal Research) is hosting a seminar on coastal zone management at the Skalling Laboratory in the very northern part of the Wadden Sea, Denmark. The underlying ideas are twofold; both to exchange information about the latest research within coastal zone management and also to create a strong network between young (<35 years) staff and researchers working with this topic.

If you are one of the youngsters, then come to the "YPEP" seminar at Skallingen. If you are not, then think of some of your younger colleagues, who might benefit from participating in ENCORA's exchange programme, where the following topics will be discussed:

How can we cope with the consequences of climate changes and the resulting sea level rise? Are harbour constructions and dikes going to be dimensioned differently in the future? How can we solve the ecological and environmental problems in the coastal zone, which arises from increased run-off and nutrient supply from land?

Preliminary programme:

11 September	approx.	18:00	Pick up at Esbjerg Station in mini busses
		20:00	Welcome
		20:10	Group presentations from the participating institutions
		21:00	Ice breaker
12 September		08:30	Breakfast
		09:00	Lecture: Per Sørensen, KDI (Danish Coastal Authorities) <i>-Coastal zone management in Denmark</i>
		09:45	Lecture: Signe Marie Ingvarsdén, KDI (Danish Coastal Authorities) <i>-Sustainable coastal protection; the EU project ComCoast</i>
		10:30	Coffee break
		11:00	Lecture: Karen Edelvang, DHI (Danish Hydrological Institute) <i>The impact of climate on estuaries</i>
		11:45	Lecture: Torben Larsen, AUC (University of Aalborg) <i>-An inconvenient truth on the closure of Thyborøn Channel</i>
		12:30	Lunch
		13:00	Excursion (The Danish West Coast and the Wadden Sea) Aart Kroon, Institute of Geology and Geography, University of Copenhagen
		19:30	Dinner and party

13 September	08:30	Breakfast
	09:00	Lecture: Jens Hesselbjerg Christensen, DMI (Danish Meteorological Institute) <i>-Simulating future climate scenarios</i>
	09:45	Lecture: Karsten Mangor, DHI (Danish Hydrological Institute) <i>-Coastal constructions</i>
	10:30	Coffee break (check-out of rooms before 11:00)
	11:00	Salt-marsh hiking, Jesper Bartholdy, Institute of Geology and Geography, University of Copenhagen
	13:30	Lunch
	14:30	Lecture: Morten Pejrup, Institute of Geology and Geography, University of Copenhagen <i>-The future development of the Wadden Sea</i>
	15:15	Coffee and cash settlement
	16:00	Departure

The seminar is subsidized by DANCORE and the cost for participation is therefore 500 DKK which includes lectures, local transportation, food and accommodation. Please note that membership of your national coastal network is a prerequisite for participation.

Preliminary express of interest is given to Morten Lundkvist at [mlu@dhigroup.com](mailto:mlu@dhigroup.com). The final date for registration is 10 August 2007 (max. 20 participants). Further information about final registration follows shortly.

Regards,  
DANCORE YPEP Coordination Committee

Anni, Martin and Morten
