Advanced Series on
Ocean Engineering: Volume 39

LIQUEFACTION AROUND MARINE STRUCTURES (With CD-ROM)

by **Mutlu Sumer** (*Technical University of Denmark, Denmark*)

With CD-ROM

This book, whose primary aim is to describe liquefaction processes and their implications for marine structures such as pipelines, sea outfalls, quay walls and caisson breakwaters, discusses the subject of soil liquefaction in the marine environment.

In addition, the physics of liquefaction (including examples illustrating the catastrophic consequences of soil liquefaction with regard to marine structures) are described, and the mathematical modelling of liquefaction is treated in detail. Also, some selected numerical examples support the discussion of assessing liquefaction potential, and benchmark cases such as buried gas pipelines and their floatation, caisson breakwaters, cover stones and their interaction with liquefied soil along with counter measures are investigated.

Contents: Introduction; Physics of Liquefaction Processes in the Marine Environment; Biot Equations; Mathematical Modelling of Liquefaction (Residual and Momentary Liquefaction); Assessment of Liquefaction Potential; Floatation of Buried Pipelines in Liquefied Soils; Liquefaction Underneath Marine Gravity Structures under Waves; Other Benchmark Cases; Counter Measures (Including Cover Stones); Earthquake Induced Liquefaction Around Marine Structures.

Readership: Professionals and researchers in the area of coastal, ocean and marine civil engineering; graduate and post graduate students.

ORDER FORM

Please complete the form and send it to any of our offices below or order online @ www.worldscientific.com.
Alternatively, you can send your order directly to your regular book supplier.

- **NORTH & SOUTH AMERICA** **World Scientific Publishing Co. Inc.**
27 Warren Street, Suite 401-402, Hackensack, NJ 07601, USA Fax: 1-201-487-9656 Tel: 1-201-487-9655 Email: sales@wspc.com
- **EUROPE & THE MIDDLE EAST** **World Scientific Publishing (UK) Ltd.**
