

CALL FOR PROPOSALS

## BRILLIANT MARINE RESEARCH IDEA GRANTS 2025

**OFFERED BY VLIZ PHILANTHROPY The Sea as a Good Cause**

Call open to **PhD students working in the South** strongly linked with a Flemish marine research group or with a Flemish university or university college

## Summary

<b>Budget 2025</b>	5.000 EUR funded by VLIZ philanthropy. Maximum fund per grant: 5.000 EUR
<b>Implementation period</b>	The proposed idea has to be executed within one year after the grant is awarded. Start date: 1 March 2025. End date: 28 February 2026.
<b>Eligibility</b>	PhD students working in the South*, with a strong connection with a Flemish Marine Research Group or a Flemish university or university college with, at the time of application, less than 6 years of research experience at predoc level (i.e. since starting PhD research). Applicants can only benefit from this grant once during their PhD.  * see list of countries at the end of this document
<b>Launch of the call</b>	21 November 2024
<b>Submission deadline</b>	No later than 17 January 2025
<b>Selection</b>	The selection will be made before 24 February 2025, by the VLIZ Scientific Committee.
<b>Topics</b>	Marine research ideas contributing to solving a research question linked to a.o. the themes identified in the philanthropy research agenda: climate change, ocean and human health, complemented by explorations, marine observations and technological innovations.
<b>Required documents</b>	<ul style="list-style-type: none"> <li>- application form (download the form <a href="#">here</a>)</li> <li>- cv of the PhD student</li> <li>- letter of consent of the supervisor affiliated to the student's university or university college (free format)</li> <li>- recommendation letter of the scientist with whom the student is strongly connected at a Flemish Marine Research Group, a Flemish university or a Flemish university college (free format)</li> <li>- a copy of your international master's degree from a Flemish university <u>or</u> prove of your doctoral grant, half awarded by a Flemish Marine Research Group or university combined with the financing of the other half by a partner institution or university in the South.</li> <li>- optional: copy of your PhD proposal</li> </ul>

*VLIZ philanthropy, named The Sea as a Good Cause, is a program set up by the Flanders Marine Institute vzw (VLIZ) in order to raise additional funds to support scientists, engineers and students to come up with creative solutions for current problems, to develop innovative techniques and to support sustainable use of our seas and ocean. Any form of support means a step forward for our scientific knowledge.*

*With this grant for a 'Brilliant Marine Research Idea', we hope to inspire and enable **PhD students working in the South** and with a strong demonstrable link with a Flemish Marine Research Group, Flemish university or a Flemish university college to explore and pan out a brilliant idea, an out of the box idea, an on the top research topic, but always framed within their ongoing marine research.*

*For more information regarding VLIZ philanthropy, check [vliz.be/sea-good-cause](https://vliz.be/sea-good-cause) and [vliz.be/brilliant-marine-research-idea-grant](https://vliz.be/brilliant-marine-research-idea-grant)*

## What is a grant for a ‘Brilliant Marine Research Idea’?

The grant for a ‘Brilliant Marine Research Idea’ for predocs in the South is intended to inspire and enable PhD students working in a southern non-European country\* while having a strong connection to a Flemish Marine Research Group, a Flemish university or a Flemish university college by

- having obtained an international master’s degree from a Flemish university\*\*, or
- having a doctoral grant, half awarded by a Flemish Marine Research Group or university combined with the financing of the other half by a partner institution or university in the South (so called “sandwich grant”).

The grant serves to execute a brilliant idea during the PhD within the frame of their research. It should concern an out of the box idea, an additional research topic that was initially not foreseen in the PhD, but that would add an extra value to the ongoing research.

The fund of maximum 5.000 EUR can be used to assist PhD students in lab and/or fieldwork, data acquisition and analysis, visits to other institutes to use specialized facilities, acquisition of equipment or software needed for a certain analysis and so on. The fund cannot be used to reimburse the use of existing lab infrastructure within his/her research group/department, for personnel costs, to pay for travel costs that amount to more than 50% of the grant or to attend conferences.

## Who funds the ‘Brilliant Marine Research Idea’ grants?

The Brilliant Marine Research Idea grants are funded by VLIZ philanthropy **The Sea as a Good Cause**.

VLIZ - [Flanders Marine Institute](#) - has become, over the last 24 years, a knowledge institution indispensable to the marine research landscape. What started as an institute focusing on science support, has evolved into a national and international point of contact for marine research. VLIZ initiates and carries out multidisciplinary research and supports marine experts by providing research infrastructure, data, information and knowledge. VLIZ supports the blue economy and reaches out to a broad public. VLIZ further broadens its marine horizons and aims at becoming a world player in the field of marine and coastal research.

VLIZ is, alongside its core activities, recognized as a charitable organization and therefore developed a financial separate philanthropy program named [The Sea as a Good Cause](#). Through this program, VLIZ is able to raise additional funds through membership fees, donations, sponsorships, bequests, etc. to provide financial support to promote marine research worldwide.

## Budget and implementation period

The overall budget available for the BMRI grant for predocs from the South is 5.000 EUR from VLIZ philanthropy The Sea as a Good Cause. The grant will be awarded to the successful applicant personally and the terms and conditions (including a short contract) of the award will be discussed and negotiated prior to the implementation of the idea. The proposed idea has to be executed within one year. The selection of the ideas will take place before 24 February 2025. The successful applicants can start their activities from 1 March 2025 and complete them by 28 February 2026.

## Eligibility and selection criteria

### Eligibility of applicant

- PhD student with, at the time of application, less than 6 years of research experience at predoc level (i.e. since starting PhD research) working in a southern non-European country\*

- Having a strong demonstrable link with a Flemish Marine Research Group, Flemish university or a Flemish university college by having obtained an international master's degree from a Flemish university\*\* or having a doctoral grant, half awarded by a Flemish Marine Research Group or university combined with the financing of the other half by a partner institution or university in the South (so called “sandwich grant”).
- Consent of the university (college) supervisor

### Eligibility of budget and implementation period

- Maximum request for 5.000 EUR
- Maximum duration of 1 year
- Implementation between 1 March 2025 and 28 February 2026

### Eligibility of activities and related costs

The grant (budget allocated by The Sea as a Good Cause) includes all possible university/institute ‘overhead’ or other costs, i.e. no additional will be accepted:

- The grant is used to finance local costs (within the country where the student runs his/her PhD research)
- No personnel costs
- No conference fees
- No reimbursement of the use of existing lab infrastructure within your research group or department
- Travel costs cannot amount to more than 50% of the grant
- If required by your university or university college, overhead should be included in the budget
- The research topic should concern an out of the box idea, an additional research topic that was initially not foreseen in the PhD, but that would add an extra value to the ongoing research
- Recommended:
  - the research topic is unique and relevant for the country which is proved by publications
  - the research results in a strengthening of the collaboration with the connected Flemish Marine Research Group by e.g. contributing, to a database, a project, a publication, etc.

### Eligibility of research domain for the VLIZ philanthropy BMRI grant

**The Sea as a Good Cause** seeks to fund a marine research idea that contributes to solving a hypothesis-based marine research question. Topics of interest are, amongst others and not limited to, the themes identified in the philanthropy research agenda:

- Climate change (the interaction between ocean, climate and biodiversity)
- Ocean health and the relationship of the ocean with human health
- Ocean explorations
- Marine observations
- Technological innovations

### Eligibility of submission modalities

Timely and complete submission. **Submission deadline:** No later than 17 January 2025.

### Selection procedure

After the deadline has passed, the scientific board of VLIZ will evaluate the submitted applications and make a final selection. The jury has the right to withhold the grants, if it decides that none of the proposed proposals can be taken into consideration.

All applicants will be personally informed about the success of their proposal.

The grant is awarded during the VLIZ Marine Science Day on 5 March 2025. The successful applicant will be invited to present his/her work at the VLIZ Marine Science Day 2026.

## How to apply?

Candidates can apply for the grant by sending **following documents** to [filantropie@vliz.be](mailto:filantropie@vliz.be):

- application form ([download here](#))
- cv of the PhD student
- letter of consent of the supervisor affiliated to the student's university or university college (free format)
- recommendation letter of the scientist with whom the student is strongly connected at a Flemish Marine Research Group, a Flemish university or a Flemish university college (free format)
- a copy of your international master's degree from a Flemish university or prove of your doctoral grant, half awarded by a Flemish Marine Research Group or university combined with the financing of the other half by a partner institution or university in the South.
- optional: a copy of your PhD proposal, to proof the add-on value of your BMRI proposal

**Subject of the e-mail:** Proposal for a 'Brilliant Marine Research Idea' 2025 (predoc South)

## Where to turn for more information?

**\* Annex 1: Countries eligible for a BMRI grant for predoc researchers in the South**

<b>Africa</b>	<b>Middle &amp; South America</b>	<b>Asia &amp; Oceania</b>
Algeria	Antigua and Barbuda	Bangladesh
Angola	Argentina	Cambodia
Benin	Belize	China
Cameroon	Brazil	Cook Islands
Comoros	Colombia	Democratic Republic of Korea
Congo	Costa Rica	Fiji
Democratic Republic of Congo	Cuba	Philippines
Djibouti	Dominica	India
Equatorial Guinea	Dominican Republic	Indonesia
Eritrea	Ecuador	Kiribati
Gabon	El Salvador	Laos
Gambia	Grenada	Maldives
Ghana	Guatemala	Malaysia
Guinea	Guyana	Marshall Islands
Guinea Bissau	Haiti	Micronesia
Ivory Coast	Honduros	Myanmar
Kenya	Jamaica	Nauru
Liberia	Cape Verde	Niue
Libya	Mexico	Palau
Madagascar	Montserrat	Papua New Guinea
Morocco	Nicaragua	Samoa
Mauritania	Panama	Solomon Islands
Mauritius	Peru	Sri Lanka
Mozambique	Saint Helena	Thailand
Namibia	Saint Lucia	Timor-Leste
Nigeria	Saint Vincent & the Grenadines	Tokelau
Sao Tome & Principe	Suriname	Tonga
Senegal	Venezuela	Tuvalu
Sierra Leone		Vanuatu
Sudan		Vietnam
Somalia		Wallis and Futuna
Tanzania		
Togo		
Tunisia		
South Africa		

**\* Annex 2: International master's programs with a marine component that qualify for the BMRI grant at predoc level for researchers in the South**

- [Master of Science in Marine and Lacustrine Science and Management \(Oceans & Lakes\)](#)
- [International Master in Marine Biological Resources \(IMBRSea\)](#)
- [International Master of Science in Agro- and Environmental Nematology \(IMaNema\)](#)
- [Master of Science in Aquaculture](#)
- [Erasmus Mundus Joint Master Degree in Tropical Biodiversity and Ecosystems \(Tropimundo\)](#)
- [Interuniversity Programme in Water Resources Engineering \(IUPWARE\)](#)
- [Master of Sustainable development \(SUSDEV\)](#)
